Executive Briefing – GE Davis Inc.

Prepared by: Glenna Davis, RN, BSN

Founder & Executive Director, GE Davis Inc.

July 2025

Overview

GE Davis Inc. is a 501(c)(3) nonprofit organization dedicated to advancing workforce recovery, legal protection, and health equity for nurses and protected-class professionals navigating burnout, workplace discrimination, and systemic harm.

Program Highlight: Be Brave Nurse Recovery System™

Developed by Glenna Davis, RN, the Be Brave Nurse Recovery System™ is a trauma-informed, legally grounded career recovery model. It supports nurses in taking protected leave (FMLA), documenting workplace harm, and returning to work without psychiatric labeling or stigma.

Current Needs & Opportunities

- Pilot CE-accredited recovery cohorts in partnership with hospital and public health systems
- Integrate recovery tools into nursing education and retention programs
- Collaborate with institutional stakeholders to expand the model statewide

Why This Matters

Nurses—especially Black women and frontline staff—are exiting the workforce at alarming rates due to preventable, stress-related conditions. GE Davis Inc. provides an alternative path forward that centers recovery, protection, and justice.
